GRANT GUIDELINES

Information: The Bolick Foundation (EIN: 56-608634) was established in 1967 to embrace and advance the philanthropic vision of the Bolick family. Through grant making, this vision has strengthened over the past decades with broad support of religious, educational, charitable, scientific, medical and educational programs with a primary emphasis on promoting the Christian faith.

The legacy continues today as we advocate for many causes while concentrating on spreading the Christian gospel and aiding those in need.

Eligibility: The Bolick Foundation's grant cycle is July 1-June 30. Grants are made in response to a Letter of Inquiry, followed by a formal proposal submitted in writing. Letters of Inquiry may be submitted at any time. Applications are accepted in October and April. Grants will be allocated by the Board of Directors by December 31 and June 30, with the majority of grants awarded in June. All partners establish an account through our partner portal. Following log-in, there are two steps in the process: #1 - a Letter of Inquiry to evaluate if your program fits within The Bolick Foundation mission. *Former recipients may omit step #1.* Step #2 - a written proposal based on the requirements listed below.

Restrictions:

- No grants are made to individuals.
- Limited grants may be awarded for multiple years. A renewal application or visit may be considered to review progress of previous year.
- Grants are made for program related activities as well as limited support of capital improvements when criteria are met.

Grant Cycle: July 1 - June 30

**Applications Due By: October 31 for December funding allocations
 April 30 for June funding allocations**

Grants will be allocated by the Board of Directors by December 31 or June 30. Approved grants and denied grants will receive notification. Funded partners may receive one grant within a fiscal year.
